EV Enthusiast Meeting.

Thursday, May 24th | 6:30 - 8:30 PM
I-Square, 400 Bakers Park
Rochester, NY 14617

EV Enthusiasts meetings are held on the fourth Thursday of each month. All are welcome! Join us and discuss program accomplishments and updates, get up to speed on the latest EV news and shop talk, and learn more about the benefits of driving electric. I-Square offers many delicious food and drink options, as well as 8 Level 2 EV plugs in their parking lot!

Fleet Electrification Workshop

This workshop is designed to educate public and private fleet management and procurement personnel on incorporating electric vehicles (EVs) into your fleet. Topics will include an introduction to EV technology, applications best suited for EVs, technical considerations for vehicles and charging infrastructure, driver education and outreach, and procurement/financing of EVs and infrastructure.

Industry experts will present case studies and provide insight on local and national trends. Attendees can expect to learn about the application of analytics to accelerate the adoption of EVs, change driver behavior, as well as comply with regulations and policies. [Register Today!](#)

Thursday, June 14, 2018
9:00 AM - 12:00 PM (lunch provided)
I-Square (2nd floor conference room)
400 Bakers Park, Rochester, NY 14617

Workplace Charging Challenge

ROC EV now has 10 Workplace Charging Partners! These innovative workplaces within the greater Rochester area have committed to foster the expansion of the local EV market by installing charging stations at their offices. By granting their employees access to EV charging at work, they are enabling their employees to make economical and eco-friendly decisions about personal transportation. Employees who have access to workplace charging are six times more likely to drive an EV. If you are interested in having EV charging stations at your workplace, email us at info@RochesterEVs.com!

**Congratulations to Archival Methods for
winning our Level 2 Charging Station Raffle!**

**Thanks to EV Charge Solutions for donating
the station!**

EV Enthusiast of the Month

Patrick & Georgina Ho **Tesla Model 3 & Model S**

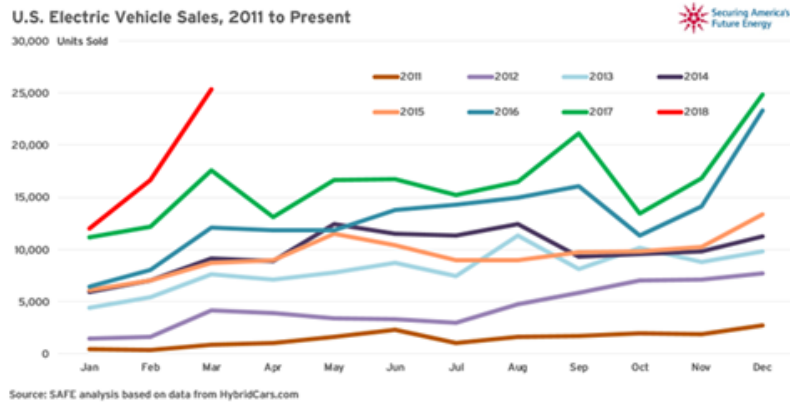

Georgina is the proud owner of one of the very first Tesla Model 3s registered in Upstate NY! She and her husband, Patrick, were kind enough to bring their brand new Model 3 to our March EV Enthusiast Meeting. When asked about what it's like to be an Tesla/EV owner, Patrick had a lot of good things to say. [Read all about Patrick and Georgina's Tesla ownership experience on our blog!](#)

Latest EV News

EVs Off to a Strong Start

The first quarter of 2018 has been the strongest quarter ever for EV sales. Automakers sold more than 54,000 EVs, a 32 percent increase from the first quarter of 2017.

With sales exceeding 25,500, March 2018 has become the strongest month ever for EV sales. The fact that record sales occurred in the first quarter, a period where they have typically lagged, is even more extraordinary and bodes well for the entire year. The number of available EV models continues to increase, providing consumers with more choices and paving the way for widespread adoption ([Read more](#)).

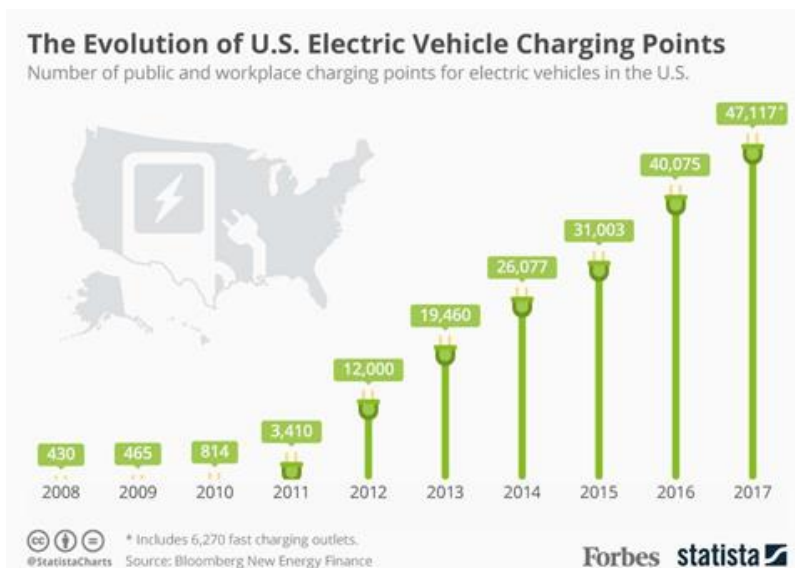

Electrify America plans to install "ultra-fast" charging stations at more than 100 Walmart stores

EV Public and Workplace Charging Points Continue Upward Trend

Just as EV sales are growing at an increasing rate, so too are EV charging stations expanding across the country. In 2016, the number of charging points increased by 18 percent. By the end of 2017, more than 47,000 public and workplace charging points were available for use in the U.S. ([Read more](#)).
