ROC EV Updates

ROC EV Helps Celebrate Inner Loop Fill-in

Senator Charles E. Schumer and Congresswoman Louise M. Slaughter joined Mayor Lovely A. Warren, along with a host of federal, state, and local leaders, to celebrate the completion of the public-construction phase of Inner Loop East Transportation Project.

The three leaders drove the first passenger vehicle, a 2018 Chevrolet Bolt from Bob Johnson Chevrolet, to signify the city's commitment to the environment and a progressive future in Rochester.

14617

EV Enthusiasts meetings are held on the fourth Thursday of each month. All are welcome! Join us for a relaxed social gathering where EV owners, EV enthusiasts, and those who want to learn more about driving electric can gather and share their knowledge and experiences with electric vehicles.

January EV Enthusiast Meeting
Thursday, January 25th, 6:30 - 8:30 PM at
I-Square, 400 Bakers Park, Rochester, NY 14617

EV Enthusiasts of the Month

"We love our electric vehicles! Quiet, low maintenance, economical and now with plenty of range - just plug in when you get home and they are ready to go in the morning, much like a cell phone. Once we get a few fast charging stations along major highways, there will be NO reason to ever go back to a gas powered car."

-Bill & Susie LaBine

Interested in Providing Workplace Charging for Your Employees?

ROC EV is working with with local businesses to help identify affordable and cost effective charging solutions that meets the needs of your workplace. Contact us at info@rochesterevs.com for more information!

What is ROC EV?

The Rochester Electric Vehicle Accelerator (ROC EV), administered by the [Electrification Coalition \(EC\)](#), in partnership with [The City of Rochester](#), [Genesee Region Clean Cities](#), and [Energetics Incorporated](#), is an innovative, community-wide initiative aimed at achieving widespread deployment of plug-in electric vehicles (EVs). This project is supported by the New York State Energy Research and Development Authority (NYSERDA) as part of the [Charge NY](#) initiative. ROC EV partners are working with public and private sector leaders to facilitate the necessary infrastructure, educational outreach, coordination, and commitment from local businesses to transform greater Rochester into a model electric vehicle accelerator community.
